EDUCATION

Guru Nanak Institute of Technology

Bachelor of Technology in Computer Science and Engineering

Hyderabad

Nov. 2021 – Present

Narayana Junior College

Intermediate

Hyderabad

April 2019 – March 2021

INTERNSHIPS

Web Developer Intern

The Sparks Foundation

January 2024 – February 2024

Hyderabad

- Developed a website that is used to donate money to charity
- Developed using HTML, CSS, JavaScript and used Razorpay API for payments and verification
- Collaborated with the development team to design the system architecture and database schema, ensuring scalability and efficiency. Utilized technologies such as Python for backend logic to create a robust and reliable banking platform.

Web Developer Intern

Bharat Intern

Oct. 2023 – Nov.2023

Hyderabad

- Developed a Netflix clone with login page and home page
- Utilized HTML, CSS, and JavaScript to design and implement the user interface of the Netflix Clone, closely mimicking the layout and design elements of the original Netflix platform.
- Optimized codebase for performance and efficiency, minimizing load times and enhancing overall responsiveness. Employed techniques such as code splitting, lazy loading, and image optimization to optimize resource utilization and improve site speed.

PROJECTS

Programming Quiz | Python

January 2024

- Conceptualized and designed the architecture of the quiz application, ensuring scalability, efficiency, and ease of use. By implementing modular components and optimizing resource allocation
- Implemented various features including user authentication, question generation, scoring mechanisms, and result tracking to enhance the functionality of the quiz.
- Continuously enhanced the quiz application by incorporating user feedback, implementing new features, and optimizing performance to meet evolving requirements.

The Word Raider | Python

February 2024

- Developed a project that is filled with intriguing word puzzles, where each level presents a unique challenge to test your vocabulary skills and wit
- By combining my passion for game development with my expertise in Python programming, I have created Word Raider—a captivating word game adventure that promises hours of entertainment and intellectual challenge. Join the quest, sharpen your vocabulary, and become the ultimate Word Raider!

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML/CSS

Frameworks: Django, Flask

Developer Tools: Git, VS Code, Visual Studio, PyCharm, Sublime

Libraries: Pandas, NumPy, Matplotlib

VOLUNTEERING

HR Conclave

Hyderabad

Organised event with 21 HRs of leading organizations and with over 1200 audience
